We have the expertise to understand business needs which help our clients gain technical and competitive advantage. We are well positioned to be a partner and co-innovator to businesses in their transformation journey, identify new growth opportunities and facilitate their foray into new sectors and markets.

We have very strong team of techies, who have expertise in below areas.

- Cloud & Virtualization
- Infrastructure Management Services
- Professional Services
- Application and Web Development
- Testing Services

Cloud & Virtualization

AAREKS Technology is authorized **VMware Partner Professional Solution Provider**.

AAREKS offers private/public cloud solutions (IaaS, PaaS, and SaaS) to small, medium or large business based on VMware, Hyper-V, and OpenStack.

Enterprise needs to be ready to deal with the growing uncertainty of business conditions, but you also have to be responsible in your IT infrastructure spending.

Being able to ramp up your infrastructure as your needs grow becomes critical. The speed at which you can do this is equally critical. You also need the skill sets to manage the entire operation.

Aareks public cloud enables you to achieve all this and more. With this model, you can easily scale your critical IT infrastructure up and down, based on your business requirements.

Aareks offers complete support and handholding, from helping you assess your requirements, to deployment and complete integration, to round-the-clock support and management. With our services, your enterprise gets the flexibility and speed it needs to be able to respond effectively to business challenges.

There are below benefits to cloud computing:
- On-Demand Self-Service
- Rapid Elasticity
- Measured Service
- Agility
- Cost Efficiency
- Device and Location Independence
- Maintenance
- Reliability
- Scalability and Elasticity
- Security
- Resource Pooling

Infrastructure Management Services

AAREKS Technology offers a wide spectrum of services covering IT Infrastructure Consulting, Design, Implementation, Operational Support, Cloud Enablement and Hosting. We have expertise in providing cost effective DIS solutions to your infrastructure. We offer virtualizes computing, from the data center to the cloud, to help our customers be more agile, responsive, and profitable.

AAREKS provides 24 x 7 x 365 operations support for client's mission-critical IT infrastructure using its Global Delivery Model.
